The Complete BRICKFORM System

Architectural concrete has become one of the most popular ways to color and texture concrete, especially since it costs approximately a third less than many natural materials. BRICKFORM offers a complete range of systems to choose from. Systems that work seamlessly together to resurface and restore aging concrete or to create new colored and textured hardscapes. Systems that include stencils, cementitious coatings, a wide variety of coloring products, imprinting tools, companion accessories, and an extensive line of sealing and maintenance products.

Great products, however, are only part of a successful project. Knowledgeable specifiers and skilled installers are key ingredients. That is why BRICKFORM is affiliated with AIA and ASLA. We have developed accredited presentations so that architects will have a better knowledge of what decorative concrete is all about. BRICKFORM supports hands-on training and demonstrations across the nation, where installers are presented with the latest in product knowledge and techniques. Professional Area Managers participate in product knowledge meetings so that distribution has a thorough understanding of how our products work as a system.

Contact your local representative or our friendly and knowledgeable Customer Service Department to find out how BRICKFORM's products give you the concrete advantage.
Why Buy BRICKFORM?
Fast, Friendly, Expert Service

Professional people are available to answer questions about our products and how they work as a system. Our Customer Service Department can help you to find a distributor in your area. Our Technical Support Team can help answer questions on application and installation techniques. Call today for more information.

Account Managers
Exceptional customer service is our goal. BRICKFORM strives to exceed expectations by resolving issues on the first call. We have dedicated, professional account managers to help make your project a success from start to finish.

Technical Support
Have a technical or jobsite question? Contact a BRICKFORM Technical Support Representative or Account Manager for more information at 1-800-483-9628.

At BRICKFORM, we want to make sure you have the support you need. We are devoted to providing the most comprehensive information and education to architects, distributors, contractors, and installers. BRICKFORM works with dealers nationwide to sponsor hands-on demonstrations. Here installers are presented with the latest in product knowledge and techniques.

Information on everything, from tips to testimonials and technical information is available on our website. Up-to-the-minute schedules of our latest product demos are posted. We participate in many local and international trade shows where we showcase new products, instructional videos and demonstrations for attendees.

Our technical specialists are only a phone call away and are trained to answer your questions on your particular installation or project. Area Managers are also available for jobsite consultations.

Shipping & Traffic
Once you have placed your order, the BRICKFORM team of transportation specialists take over to ensure that your order is packaged and shipped. These experienced professionals ship your order in the fastest, most economical way possible. You may also choose your own trucking company or company truck for your shipment.

Product Knowledge
BRICKFORM understands your desire to know how our systems work. Our managers can arrange accredited architectural presentations or product knowledge meetings.

Nationwide Sales Support
The BRICKFORM Area Manager is there to provide ongoing superior service. BRICKFORM understands the meaning of quality support, so we have chosen Area Managers with the background, knowledge and expertise to answer your questions quickly and correctly. Contact Customer Service at 1-800-483-9628 for the name and contact information of your local Area Manager.

Find a Contractor/Installer
Need help getting started on you dream project? Call 1-800-483-9628 to be referred to a BRICKFORM distributor near you. Ask your local distributor to recommend a contractor who specializes in using BRICKFORM decorative concrete products.

Training
BRICKFORM supports hands-on training and demonstrations across the nation, where installers are presented with the latest in product knowledge and techniques. Professional area managers participate in product knowledge meetings so that distribution has a thorough understanding of how your products work as a system.
Engineered Texturing Systems

The BRICKFORM system of Texture Mats has introduced a whole new level of creative expression to decorative concrete work. Precision engineered tools make possible a high degree of controlled creativity. It is now possible to mimic and even enhance the look and feel of natural stone and many other surfaces. Anything from finely tooled slate to perfectly set cobbles, BRICKFORM has the tools to make it happen, with absolute control.

Largest Selection and Best Value

Pattern
BRICKFORM manufactures the largest selection of texturing tools worldwide. Over 175-patterns, from Rough Cut Ashlar to Random Stone, and used brick textures to wood plank, are available in various sizes, joints, grout lines, and configurations.

Texture
Over 30-textures have been designed to recreate the look and feel of natural materials. All tools, from random fieldstone to coarse wire-cut brick, heavily textured stone to the smooth look of Mexican tile are created with strict attention to detail.

Precision and Durability

The resilient material used to create each texture is designed to retain pattern “memory.” Consistent, well-defined, uniform texture is transferred, in every detail, onto the concrete surface imprint after imprint.

Our company is dedicated to the precise and unsurpassed consistency of each and every texturing tool. Strict standards are exercised so that every tool is tight-fitting; reducing pattern lines and unsightly ridges.

Each tool is crafted from a high-quality polyurethane material that is flexible, yet retains high-tear strength. Sturdy handles are methodically placed according to tool-weight distribution, increasing balance and maneuverability.

Disclaimer - All measurements are nominal. Skin and texture mat measurements are based on the Brickform mold size. Urethane has a natural tendency to shrink or expand, depending on environmental factors. This does not affect how the mats fit together.
Seamless Skins

BRICKFORM Seamless Skins™ are feathered-edged skins that produce continuous texture with no grout or joint lines. BRICKFORM texture skins are available in standard-grade and ultra-flexible materials, all designed with unsurpassed quality. Seamless skins are compatible with BRICKFORM Stampable Overlay.

1. **Blue Stone Texture (A)**
   - A natural stone surface with a sandy texture that includes clefts which leave a layered appearance.

2. **Limestone Texture (B)**
   - A natural stone surface, similar to Veronica Stone but with a finer texture.

3. **Rough Stone Texture (C)**
   - A natural stone texture characterized by a continuous coarse surface with several distinguishing veins.

4. **Heavy Stone Texture (D)**
   - A rough, natural stone surface containing chips, fractures, pockmarks and veins.

5. **Sanded Slate Texture (E)**
   - Similar to our slate texture with the addition of a lightly sanded appearance across the entire texture field.

6. **Renaissance Slate Texture (F)**
   - A natural, stone surface with a slight sandstone texture that includes various veins, typically running in a similar direction.

7. **Chiseled Slate Texture (G)**
   - A naturally laminated stone texture, split along parallel planes, hand-tooled to create a chipped, fragmented look.

8. **Roman Slate Texture (H)**
   - A slate stone surface that utilizes dips, ridges and veins to create a continuously changing texture across the entire surface.

9. **Yucatan Texture (J)**
   - A stone surface consisting of deep chips, pits and fractures creating a continuously undulating texture.

10. **Sierra Seamless Texture (K)**
    - A natural stone texture with an ocean-worn surface that combines rough, heavy, stone appearance with water-washed ridges, veins and clefts.
Texture skins are shown as color photographs to suggest the wide variety of finishes possible. See page 59 for ordering information.

A blended slate pattern with enhanced highlights. |
| ![Image](image9.png) | Sidewalk Stone (W)  
A rustic blend of soft and strong textures, giving a traditional feel to any surface. |
| ![Image](image10.png) | Riviera Texture (X)  
A naturally laminated stone texture, split along parallel planes, creating an uneven surface that incorporates various veins and ridges. |
Paladiano Texture Mats by Bob Harris

These specialty tools are cast from natural stones in historical regions with authentic textures and shapes that are pleasing to the eye from all angles. England, Italy, Bulgaria, Greece, Cyprus and France are the locations which inspired the “Wonders of the World” stamping tool line.

YORKSHIRE COBBLE

York was for many years the heart of England. When troubled times fell upon London Kings and Queens would retreat back to York, safe behind fortified walls. York cathedral stands in the centre of the cobbled streets that inspired Paladiano to recreate these 13th century cobbled stones.

**Pavimento of Paris**

Paris, France is one of the most inspirational places for architecture. The Paladiano team recognized the abundance of granite sets positioned in a repetitive fish scale design. These quarried granite sets had been dressed and hand placed by what can only be described as paving artisans. To reproduce the streetscapes of Paris was an engineering challenge.

Rotating Venetian Marble

Founded more than 1,500 years ago on 117 different islands, Venice, Italy is linked by a series of over 150 canals, 400 bridges and many ancient pavements.

Travertine and Marble streets and sidewalks, cut with precision were then placed by skilled masons. The original stones were unfinished, now with hundreds of years of floods and use the marble and granite have naturally become honed and smooth.

Hammered Sofia Stone

For over 7000 years Sofia, Bulgaria has been a meeting place of the four directions of the world making Sofia one of the oldest settlements in Europe.

Plazas, town squares and winding streets made from granite and lime stone with a Bush Hammered texture. A bush-hammered finish is one with a rough uniformly patterned surface produced by an impact tool with a smooth border around each stone creating a prestige look.
Stones of Athens 🇬🇷
The ancient city of Athens, Greece, crowned with marble temples such as the Parthenon and the Acropolis stands the test of time with millions of visitors walking the time old streets of Athens. A variety of different stones helped create Athens Stone, one of most intricate tools using over 14 combined textures: Limestone, Marble and Granite are all used next to each other detailing the fine craftsmanship of ancient Greece.

Fractured Cyprus slate 🇨🇾
Cyprus, a small island with a large history, is surrounded by the Mediterranean Sea, soft sand and heavy slate hardscapes. The natural paving material is a hardened slate found deep underground. Heavy in texture but difficult to shape, the joints have a fractured split edge.

Contractors Choice Texture Mats

Brickform recognizes contractor feedback with the introduction of our Contractors Choice line comprised of everyone’s favorite textures. Contractors Choice is a professional line of tools that are tough, slim, sleek and firm, for a great feel on and off the slab. These new tools are both economically and ecologically friendly, emphasizing quality and dependability.

**European Fan, EF-650 S/O**
26" x 46" (66.04 x 116.84 cm)
Black
*An elegant European fan pattern, consisting of slightly curved rectangular slate stones*

**Large Ashlar Cut Slate, EF-3150 S/O**
28" x 28" (71.12 x 71.12 cm)
Black A, B, C
*Similar to Ashlar Cut Slate but the overall size is larger, with a softer texture*

**Random Stone, EF-700**
29.125" x 29.125"
(73.97 x 73.97 cm)
Black A, B, C
*Heavily textured random fieldstones*

**Herringbone Used Brick EF-5000 S/O**
32" x 36" (81.28 x 91.44 cm)
Black
*A weatherworn brick surface with an uneven texture and rounded broken edges*

**36" Ashlar Cut Slate, EF-3120 S/O**
Without Insert
36" x 36" (91.44 x 91.44 cm)
Black A, B, C
*Stones with a slate surface, in an Ashlar pattern*

**Running Bond Used Brick EF-5100 S/O**
16" x 36.5" (40.64 x 92.71 cm)
Black
*Used bricks laid end-to-end, with sandy joints*

**6" x 6" Edinburgh Cobble, EF-520**
26" x 36" (66.04 x 91.44 cm)
Black
*A rugged weathered cobblestone pattern*

**Ashlar Cut Slate, EF-3125 S/O**
23.125" x 23.125"
(58.74 x 58.74 cm)
Black A, B, C
*A naturally laminated stone texture split along parallel planes, hand-tooled to create a more pronounced chipped fragmented texture with small deep joints*

**London Cobble, EF-540 S/O**
17" x 29.75" (43.18 x 75.56 cm)
Black
*A traditional lightly textured cobblestone pattern*

**Running Bond New Brick EF-5150 S/O**
24" x 36.5" (60.96 x 92.71 cm)
Black
*A running bond pattern with smooth joints*

Contractors Choice EF tools cannot be used in conjunction with rigid FM tools. Floppy tools are acceptable to use with EF only.
Stone Texture Mats

Whether you want the look of Granite, Blue Stone, Old English Cobblestone, Mexican Tile, or Pavers, BRICKFORM offers an array of texture mats that simulate a broad range of natural stone materials. Achieving these beautiful impressions with BRICKFORM precision tools provides an end result that is affordable and often easier to work with than natural materials. BRICKFORM has a stone texture tool ready to complement any design theme from an Italian Villa to an English Country Garden.

Rough Cut Ashlar, FM-100 S/O
24" x 24" (60.96 x 60.96 cm)
Red, Yellow and Blue
Rough hand-tooled stones arranged in an Ashlar pattern

Australian Ashlar Cut Stone
FM-150 S/O
23.25" x 23.25" (59.05 x 59.05 cm)
Red, Yellow and Blue
A coarse rugged Blue Stone set in an Ashlar pattern

4" x 4" Slate Sets, FM-200 S/O
24" x 24" (60.96 x 60.96 cm) Red
Slate texture with a hand-chiseled edge

6" x 6" Granite Sets, FM-250 S/O
24" x 24" (60.96 x 60.96 cm)
Blue
Rough Stone texture with a hand-chiseled edge

12" x 12" Cut Stone, FM-300 S/O
24" x 24" (60.96 x 60.96 cm)
Red
A rough natural stone, hand-tooled to create a chipped and fragmented texture

Windsor Cobble, FM-500 S/O
22.75" x 29.75" (57.78 x 75.56 cm)
Blue
A traditional cobblestone pattern with wider joints

6" x 6" Edinburgh Cobble, FM-520
26" x 36" (66.04 x 91.44 cm)
Yellow
A rugged weathered cobblestone pattern
Stone Texture Mats

Texturing Products

London Cobble, FM-540 S/O
17” x 29.75” (43.18 x 75.56 cm) Blue
A traditional lightly textured cobblestone pattern

London Cobble Strip, FM-560 S/O
5.75” x 28.625” (14.605 x 72.71 cm) Blue
A lightly textured cobblestone pattern in a single strip

Cheshire Cobble (Smooth Grout), FM-525
20.5” x 46” (52.07 x 116.84 cm) Red
A traditional cobblestone pattern with smooth, ungrouted joints

Large Cobble, FM-580
28.125” x 33.375” (71.43 x 84.77 cm) Blue
Larger rough-cut cobblestones

Random Stone, FM-700
29.125” x 29.125” (73.97 x 73.97 cm) Red, Yellow and Blue
Heavily textured random fieldstones

Large Random Stone, FM-750
36” x 36” (91.44 x 91.44 cm) Yellow and Blue
Similar to Random Stone but 40% larger

Patio Stone, FM-1295 S/O
36.5” x 36.5” (92.71 x 92.71 cm) Red
A roughly textured arrangement of random stones

24” x 24” Yucatan Stone, FM-1100 S/O
24” x 24” (60.96 x 60.96 cm) Blue
A single square of rough Yucatan stone texture

4” x 8” Cut Stone Border, FM-1225
8.375” x 33.5” (21.27 x 85.09 cm) Red
A border of slate rectangles laid side-by-side

(Diameter - 286 3/4”)
36” x 24” (68.58 x 60.96 cm) Red

**Roman Cobble, FM-1465**
48” x 24” (121.9 x 61cm)
Blue and Yellow

A historic reproduction of cobbles that have a variety of stone shapes for old world appeal.

**Tuscany Stone, FM-1775**
28” x 40” (71.12 x 101.60 cm)
Red, Yellow and Blue

A large tool with a stone texture and interlocking joints on all four sides

Also Available: Tuscany Border, FM-1785, 48” x 12”
Slate Texture Mats

Slate is a sleek, metamorphic rock with fine veining patterns. The grain pattern of slate makes it a common resource for tile flooring because it is easily split into thin sheets. BRICKFORM slate texture tools recreate the elegant, clean design of slate without the expense and hassle of installing fragile natural stones. BRICKFORM Ashlar texture mats reflect the handcrafted, intricately-fitting stones of historic Ashlar configurations.

**36” Ashlar Cut Slate, FM-3120 S/O**
36" x 36" (91.44 x 91.44 cm)
Red, Yellow and Blue
Stones with a slate surface, in an Ashlar pattern

**Ashlar Cut Slate, FM-3125 S/O**
23.125" x 23.125" (58.74 x 58.74 cm)
Red, Yellow and Blue
A naturally laminated stone texture split along parallel planes, hand-tooled to create a more pronounced chipped fragmented texture with small deep joints

**Aidan Ashlar, FM-3130 S/O**
23.125" x 23.125" (58.74 x 58.74 cm)
Red, Yellow and Blue
Similar to the Ashlar Cut Slate but with broad shallow joints

**Large Ashlar Cut Slate**
FM-3150 S/O
28” x 28” (71.12 x 71.12 cm)
Red, Yellow and Blue
Similar to Ashlar Cut Slate but the overall size is larger, with a softer texture

**24” x 24” Slate Texture, FM-3200 S/O**
24” x 24” (60.96 x 60.96 cm)
Red, Yellow and Blue
One complete stone with hand-tooled slate texture

**12” x 12” Slate, FM-3250 S/O**
24” x 24” (60.96 x 60.96 cm)
Blue
Slate tiles laid in a parallel pattern

**12” x 12” Slate Border**
FM-3300 S/O
12” x 48” (30.48 x 121.92 cm)
Red
A border of four 12” slate squares in a row
Slate with Diamond Inset
FM-3350 S/O
24” x 48” (60.96 x 121.92 cm)
Blue
An elegant arrangement of Italian slate, with diamond-shaped insets for added detail

Walkway Slate, FM-3400 S/O
18” x 36” (45.72 x 91.44 cm)
*Red, Yellow and Blue
*Stone sizes vary
Square and rectangular slate tiles, of various sizes, set in parallel rows.

California Weave, FM-3500 S/O
24” x 24” (60.96 x 60.96 cm) Red
Slate bricks form a woven pattern around a slate square.

Herringbone Slate, FM-3550 S/O
32” x 40” (81.28 x 101.6 cm) Blue
A classic herringbone pattern of slate stones laid at right angles to each other

New England Basket Weave
FM-3600 S/O
24” x 36” (60.96 x 91.44 cm) Blue
Hand-tooled slate in a basket weave pattern

Regal Ashlar (Blue Stone)
FM-3650 S/O
36” x 36” (91.44 x 91.44 cm)
Red, Yellow, and Blue
Blue stone textured tiles, with worn beveled edges, arranged in an ashlar pattern

Grand Ashlar, FM-3675
36” x 36” (91.44 x 91.44 cm)
Red, Yellow and Blue
Stones of various shapes and sizes laid in an Ashlar pattern, with a slate texture
Brick Texture Mats

**Herringbone Used Brick**

FM-5000 S/O  
32” x 36” (81.28 x 91.44 cm) Red  
A weatherworn brick surface with an uneven texture and rounded broken edges

**Herringbone New Brick (Fine Grout)**

FM-5050 S/O  
32” x 36” (81.28 x 91.44 cm) Red  
A wire-cut common brick texture with sharp corners and few indentations or irregularities over the surface

**Running Bond Used Brick**

FM-5100 S/O  
16” x 36.5” (40.64 x 92.71 cm) Blue  
Used bricks laid end-to-end, with sandy joints

**Basket Weave Used Brick**

FM-5200 S/O  
15.375” x 30.75” (39.05 x 78.10 cm) Blue  
Used bricks in a basket weave pattern with smooth un-grouted joints

**Basket Weave New Brick**

FM-5250 S/O  
16” x 32” (40.64 x 81.28 cm) Blue  
New bricks in a basket weave pattern with sandy joints

**Running Bond New Brick**

FM-5150 S/O  
24” x 36.5” (60.96 x 92.71 cm) Red  
A running bond pattern with smooth joints

**Basket Weave New Brick (Sanded Joint)**

FM-5900 S/O  
32” x 36” (81.28 x 91.44 cm) Red  
New bricks with sandy joints

**Herringbone New Brick (Sanded Joint)**

FM-5900 S/O  
32” x 36” (81.28 x 91.44 cm) Red  
New bricks with sandy joints

**4” x 8” New Brick Border, FM-5325, S/O**

8.5” x 32.25” (21.59 x 81.92 cm) Red  
A border of new bricks laid side-by-side  
Also Available:  
4” x 8” Used Brick Border, FM-5300 S/O  
8.5” x 32” (21.59 x 81.28 cm) Red  
A border of used bricks laid side-by-side

**Single New Brick, FM-5550 S/O**

4” x 8” (10.16 x 20.32 cm) Red  
A single new brick with sharp edges  
Also Available:  
Single Used Brick, FM-5500 S/O  
4” x 8” (10.16 x 20.32 cm) Blue  
A single used brick with rounded edges

**Used Brick Runner, FM-5600 S/O**

4.5” x 32.375” (11.43 x 82.23 cm) Blue  
A border of used bricks laid end-to-end
Tile Texture Mats

Santa Barbara Tile, FM-7025 S/O
30.75" x 30.75" (78.1 x 78.1 cm)
Red
Slate textured octagons and rosette squares laid out in a unique, highly decorative pattern

Octagon Tile, FM-7100 S/O
37.5" x 37.5" (95.25 x 95.25 cm)
Blue
A blue stone texture laid out in a highly decorative pattern

Chateau Ashlar, FM-7450
36" x 36" (91.44 x 91.44 cm)
Red, Yellow and Blue
A smooth and elegant Ashlar pattern consisting of rounded stones with sandy joints

Wood Texture Mats

Classic Wood
FM-8700 S/O
81.5" x 21.75" (207 x 55.2 cm)
Blue
Combining multiple wood grains to offer a bold, pronounced, exposed grain texture with six-inch wide planks

2' Cedar Wood Plank, FM-8110 S/O
11.5" x 24" (29.21 x 60.96 cm) Blue
3' Cedar Wood Plank, FM-8210 S/O
11.5" x 36" (29.21 x 91.44 cm) Blue
4' Cedar Wood Plank, FM-8310 S/O
11.5" x 48" (29.21 x 121.92 cm) Blue
6' Cedar Wood Plank, FM-8410 S/O
11.5" x 72" (29.21 x 182.88 cm) Blue
A cedar wood texture with coarse, pronounced grain and a rough surface appearance that incorporates oversized nail heads at each end
Creative Images Texture Mats

BRICKFORM developed the Creative Images line of texture mats to incorporate the latest in textures, designs and usability. Creative Images mats are larger, an average of nine square feet, which means fewer placements and less touch-up work. Creative Images mats are made of firmer material, which allows you to begin stamping sooner. Choose Creative Images to create the best possible impression, with the least amount of effort.

Ashlar, TM-100
36” x 36” (91.44 x 91.44 cm)
Pattern: A, B and C
An Ashlar pattern of blue stone slate

Random Stone, TM-200
36” x 36” (91.44 x 91.44 cm)
Pattern: A and B
A natural looking arrangement of slate-textured random stones

16” x 16” Slate, TM-300
32” x 48” (81.28 x 121.92 cm)
Pattern: A
Slate squares in two rows, with angled, un-grouted joints

European Fan, TM-400
28” x 50” (71.12 x 127 cm)
Pattern: A
Curved slate bricks gracefully arranged in a European Fan pattern

Mesa Random Stone, TM-500
61.75” x 61.75” (156.85 x 156.85 cm)
Pattern: A
Random stones sculpted to have a rough stone, irregular shape

12” x 12” Slate - 1/4” Joint
TM-600
24” x 48” (60.96 x 121.92 cm)
Pattern: A
Rows of slate squares with beveled edges
Flagstone, TM-700
48” x 48” (121.92 x 121.92 cm)
Pattern: A and B
Flagstones with hand chiseled edges grouped in a random formation

Pennsylvania Cobble
(Sanded Joint) TM-820
31.5” x 47.5” (80.01 x 120.65 cm)
Pattern: A
A staggered pattern of cobblestone with sandy joints and rounded edges

Pennsylvania Station Cobble
(Smooth Joint) TM-840
53.5” x 30.875” (135.89 x 78.42 cm)
Pattern: A
A staggered pattern of cobblestone with smooth joints and rounded edges

12” x 12” Slate-Butt Joint
TM-900
24” x 48” (60.96 x 121.92 cm)
Pattern: A
Sharp slate squares butted up against each other in two rows

30” x 30” Bushed Stone
TM-1200
30” x 60” (76.2 x 152.4 cm)
Pattern: A
Two bushed stones with square corners and sharp beveled edges

Castle Stone, TM-1300
47.5” x 47.5” (120.65 x 120.65 cm)
Pattern: A and B
Irregular shaped natural stones
Creative Images Texture Mats continued

Luccia Stone, TM-1350
44.875” x 44.875” (113.98 x 113.98 cm)
Pattern: A
Slate stones with irregular edges, in a random pattern

12” x 12” Mexican Tile, TM-1400
24” x 48” (60.96 x 121.92 cm)
Pattern: A
Beautiful Mexican tiles with sandy joints

Verona Stone, TM-1500
42.75” x 68.5” (108.58 x 173.99 cm)
Red, Yellow and Blue
A unique random pattern of irregular stones

18” x 18” Slate, TM-1620
36” x 54” (91.44 x 137.16 cm)
Pattern: A
Three slates with sharp edges, laid in two rows

Slate Border, TM-1010
16” x 40” (40.64 x 101.6 cm)
Pattern: A

Tile Border, TM-1020
14” x 47.75” (35.56 x 121.28 cm) Pattern: A
TM-1020-1 Tile Border Corner Piece
18.25” x 20.75” (46.36 x 52.71 cm) Pattern: A

Bushed Border, TM-1030
12” x 48” (30.48 x 121.92 cm)
Pattern: A
Ultra-Liners

With the contractor in mind, Ultra-Liners take the hassle out of doing decorative step faces.

- Re-usable liner for steps, wall caps, counter-tops and pool coping
- Creates smooth and easy-to-finish surfaces
- Tight cell structure foam for long lasting liners
- Easy to bend and mold into shape
- Pre-cut guide at 5.5”
- Sized to dimensional lumber
- Offered in approximate 4’ and 8’ lengths for versatility and reduced shipping cost
- Works great with Brickform Liquid Release

*Lengths of Ultra-Liner tools is approximate, measured before placement.
**Also available: Twist-to-break wire kit (SL-2950), double-sided tape (SL-2975)
Step-Liners

BRICKFORM Step-Liners are designed to produce texture on the edges of concrete steps, risers, terracing and even concrete countertops. These Step-Liners can be reused many times. Simply attach the liners to your riser forms and impart the beauty of natural stone. They have no top or bottom and can be reversed to reduce pattern repeat. BRICKFORM Step-Liners are high-quality, flexible polyurethane, engineered to be lightweight and extremely durable.

45° Angle Step Liner (Two shown to form corner)

SL-350
45° 24” Step Liner
6” x 26.375” (15.24 x 66.99 cm)
Pattern: A or B

SL-450
45° 16” Step Liner
6” x 18.375” (15.24 x 45.72 cm)
Pattern: A or B

Hint: To reduce pattern repeat, use A and B together.
Hint: Use as a curb edge to mimic split stone.

Also Available:

SL-100
48” Step Liner
6” x 48” (15.24 x 121.92 cm)
Pattern: A or B

SL-200
72” Step Liner
6” x 72” (15.24 x 182.88 cm)
Pattern: A

SL-300
24” Step Liner
6” x 24” (15.24 x 60.96 cm)
Pattern: A or B

SL-400
16” Step Liner
6” x 16” (15.24 x 40.64 cm)
Pattern: A or B

- A variety of standard sizes
- Easy pre-cut 45°
  joints available
- Superb detail
- Reusable
- Up to 1 1/2” of texture
BRICKFORM Quick-Strips are perfect for creating a more decorative joint. By placing the Brickform Quick-Strips into your control joints prior to stamping with our seamless skins, you can transform your slab from ordinary to extraordinary in no time. (Sold 5 per case.)
Texturing Accessories

Available for your finishing needs, BRICKFORM has all the texturing accessories to complement the full-line of texture mats.

BRICKFORM Touch-up Wheels

BRICKFORM Touch-up Wheels are part of the BRICKFORM Texture Mat System and are designed to help installers create clean and crisp grout lines. These wheels are very versatile and lightweight, making them easy to use; even in the tightest areas. BRICKFORM Touch-up Wheels are available in seven styles to complement the full range of BRICKFORM Texture Mats.

BRICKFORM Pounders

Find the pounder that is right for you and your job. BRICKFORM now offers a new BRICKFORM Aluminum Handle Pounder that is light with a long-handled grip. It is designed with a flexible head that reduces fatigue on the neck and shoulders. Of course, you can’t forget about the popular Original BRICKFORM Pounder that has a rigid head with a fixed placed handle. Two great pounders to achieve optimum detail on the concrete surface.

Versatile Coloring Products

Gray concrete can be structurally sound but visually unattractive. BRICKFORM offers a wide range of decorative answers that provide a dramatic element for any setting, from a patio to a showroom floor. On the next pages you will discover many coloring treatments to meet your needs.
BRICKFORM Color Hardener
Concrete Colorant and Hardener

BRICKFORM Color Hardener is manufactured with the finest UV-resistant pigments and premium aggregates. BRICKFORM Color Hardener is designed to work with imprinting tools to produce clear, sharp impressions that enhance the finished appearance of any hardscape. When properly applied and troweled into newly placed, fresh concrete, it forms a colored concrete surface that is resistant to weathering, wear and normal abrasion. Color Hardener HD (Heavy Duty) also available.

- Non-fading
- Denser, more durable surface
- Improves abrasion resistance
- Can be antiqued and stained
- 42 standard colors
- Custom colors available
- Compatible with Stampable Overlay OL-60

CH 42 Standard Colors (Including black and white) 5 Gallon Bucket
- Custom Colors and Color Matching Available

* Use Day1 as a troweling aid, densifier and curing agent. See pg 48.
* Liquid Release is a colorless bond-breaker. See pg 48.

COLORSPREADER™
The COLORSPREADER™ gives the contractor the ability to apply dry shake materials to the surface of concrete in it’s plastic state, faster, easier, and with more uniform coverage, producing a higher quality installation.

- Increases reach (remotely broadcast from up to 30’)
- Reduces health risks
- Reduces pigment loss
- One year warranty

CHS-4801, Diamond Plate Aluminum Storage Case for 48”

BRICKFORM Antique Release
Colored Bond-Breaker

BRICKFORM Antique Release imparts a second color while serving as a bond breaker for stamping. It is made from a finely ground formula that creates beautifully antiqued and textured concrete surfaces. Antique Release is available in 42 standard colors to match or contrast with BRICKFORM Color Hardener. Custom colors and color matching are also available.

- Prevents concrete buildup
- Prolongs tool life
- Fade-resistant
- Unlimited effects and color combinations
- 42 standard colors
- Custom colors available

RA 42 Standard Colors (Including black and white) 5 Gallon Bucket
- Custom Colors and Color Matching Available
BRICKFORM Antique-It
Antiquing Agent

BRICKFORM Antique-It is a water soluble antiquing agent designed to impart a secondary color or highlight over stamped concrete or textured overlays. Antique-It is easy to apply, dries fast and provides a durable color that closely resembles the look of release powder.

AN 42 Standard Colors 3 lb container
• Custom Colors and Color Matching Available

BRICKFORM Cem-Coat
Colored Cementitious Coating

BRICKFORM Cem-Coat is a richly pigmented coating, opaque, high-strength, and perfect for coloring a all 42 standard BRICKFORM Color Hardener and BRICKFORM Antique Release colors. Custom color matching is also available.

• Richly pigmented colors
• UV-resistant
• Use to antique, marbleize, and faux paint
• Suitable for all cementitious surfaces

Custom colors and color matching services available
Standard colors not shown: (all products) 900-Black, 1000-White

*BRICKFORM Overlay Liquid Colorant not available in Smokey Blue.
Disclaimer - When choosing colors, use the stand-alone BRICKFORM color selection guide for more accurate matching. Colors shown here display only the range of BRICKFORM options available. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.
BRICKFORM FreestylePRO Stain
Penetrating Water-Based Stain

BRICKFORM FreestylePRO is a revolutionary concrete stain that penetrates and bonds with concrete surfaces in a way that no other coloring product can. This water-based, opaque stain is excellent for restoring, changing colors on previously colored surfaces, or rejuvenating old, discolored concrete. BRICKFORM FreestylePRO allows you to create totally new color styles for your decorative concrete work in an environmentally sound, versatile and user-friendly way.

- Water-based stain that is environmentally friendly
- Penetrating-bond with the concrete surface
- Excellent for changing colors, or rejuvenating old, discolored concrete
- No sealer required

BRICKFORM FreestylePRO Highlighter
Antiquing agent for Freestyle Solid Color Stain

BRICKFORM FreestylePRO Highlighter Stains are designed for use over BRICKFORM FreestylePRO Solid-Color Stain as a contrasting color to create an antiqued look on textured concrete surfaces. BRICKFORM FreestylePRO Highlighter Kits can also be used to add contrast or additional colors to areas of relief on textured concrete or to create the look of faux finishes.

- Transparent color
- Water-based stain that is environmentally friendly
- Penetrating-bond with the concrete surface
- No sealer required

Before: old, discolored concrete

After: FreestylePRO Solid-Color Stain
Brickform Blush-Tone Acid Stain
BRICKFORM Blush-Tone Acid Stain lets you create colors with real depth that are unique and captivating. Thousands of different looks can be achieved ranging from the understated elegance of burnished leather to the ageless beauty of natural stone. Blush-Tone Acid Stain will open the door to a whole new palette of creative expression.

BRICKFORM Blush-Tone Acid Stain
Chemical Stain For Concrete

BRICKFORM Blush-Tone Acid Stain reacts with minerals that exist in newly cured or existing concrete, penetrating the very top layer of the concrete surface with color that will not chip, crack, or peel. The colors produced in each section of concrete will be unique with captivating, multi-colored intensities that become a permanent part of the concrete. BRICKFORM Blush-Tone Acid Stain is available in 10 standard colors.

- Penetrating chemical stain
- Variegated color
- Will not chip, crack, or peel
- Use on floors and walls

CS 10 Standard Colors 1 Gallon Bottle
CS4 10 Standard Colors Case of four 1 Gallon Bottles

*Neutral Clean is a cleaning and neutralizing agent engineered for use on acid and reactive stained floors prior to sealing and to remove light oil, grease or other types of soils from colored, imprinted and natural concrete surfaces. See pg 48.

Disclaimer - When choosing colors, use the appropriate BRICKFORM color selection guide for more accurate matching. Colors shown here display only the range of BRICKFORM options available. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.
**Brickform E-Stain**

BRICKFORM E-Stain is a water-based formulation containing reactive mineral compounds and proprietary admixtures. BRICKFORM E-Stain contains no hydrochloric acid, making it more environmentally friendly. BRICKFORM E-Stain is ideally suited for use in the Micro-Topping, SM Professional Grade, Stampable Overlay, and cast in place concrete.

---

**BRICKFORM E-Stain**

Reactive Stain For Concrete

BRICKFORM E-Stains are penetrating, reactive stains that produce unique color effects in finished cementitious surfaces that simulate the natural shadings and aged appearance of stone or masonry. The color effect produced is unique to each stained surface and cannot be duplicated with other materials. BRICKFORM E-Stain creates a chemical reaction within the concrete substrate. This reaction slightly etches the concrete surface to provide deeper and more permanent color.

The color value of the stain can be reduced by blending the stain with E-Stain Plus. Special colors can be produced by blending two or more colors together.

- Eco-friendly reactive stain
- Acid-like characteristics without the harmful acid effects
- All colors (except EBONY) do not contain Sodium Dichromate a known carcinogen
- No harmful fumes
- D.O.T. non-hazardous shipping certified stain

---

**Disclaimer** - When choosing colors, use the appropriate BRICKFORM color selection guide for more accurate matching. Colors shown here display only the range of BRICKFORM options available. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.
**Brickform ARTesian Stain**

ARTesian stains are penetrating, water-based stains that produce unique color effects in finished cementitious surfaces that simulate the natural shadings and aged appearance of stone or masonry. ARTesian Stain may be applied over smooth troweled or textured concrete, cement-based overlayments, vertical or horizontal concrete and masonry surfaces, artificial rock displays, water features and themed finishes.

**ARTesian Stain**
Penetrating, Water-Based Stain

The color effect produced is unique to each stained surface and cannot be duplicated with other materials. ARTesian Stain contains no acids or harmful chemicals and works as an alternative to typical reactive acid stains. There are no acids or harmful chemicals integrated in its design.

- Zero VOC
- Water-based
- Interior/exterior use
- Apply with sprayer
- Must be sealed with solvent-based sealer (i.e. Gem-Seal)

**Disclaimer** - When choosing colors, use the appropriate BRICKFORM color selection guide for more accurate matching. Colors shown here display only the range of BRICKFORM options available. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.

*Top left stain applied to white Micro-Topping, bottom right applied to gray Micro-Topping.*

BRICKFORM Liquid Integral Color (Color based on 6-sack mix)

BRICKFORM Liquid Color is made from the finest UV-resistant pigments available. BRICKFORM Liquid Color is produced to a one-percent tolerance to established plant standards and also complies with ASTM C979, Pigments for Integrally Colored Concrete. BRICKFORM Liquid Color is designed to suspend and disperse the iron oxide pigments evenly. BRICKFORM Liquid Color is available in standard and designer colors. Custom colors and color matching are also available.

- Dust-free
- UV-resistant color
- Mixes evenly
- Meets ASTM C979

Made-to-Order

LC 24 Standard Colors 1 Cubic Yard

* Use Day1 as a troweling aid, densifier and curing agent. See pg 48.
* Surface Deactivator makes exposed aggregate finishes easier and more consistent. See pg 48.

BRICKFORM Color Wax

Color Wax is a wax-modified colored concrete cure and seal formulated for exterior or interior concrete surfaces. It has excellent adhesion properties and superior resistance to ultraviolet light, as well as resistance to acids, oils, mildew and alkalies while creating a non-gloss finish. Color Wax is available in all standard SOLOMON and BRICKFORM integral colors. (Color Wax is made to order, custom colors available.)

- Easy clean-up
- Water-based
- Improves color consistency
- Enrich existing color
- User-friendly
BRICKFORM Powdered Integral Color

BRICKFORM Powdered Color is a powdered-based pigment designed to color the cement paste in a concrete mixture. Powdered Color can be used for cast-in-place, pre-cast, and tilt-up, concrete block, pavers, and textured concrete. BRICKFORM Powdered Color is available in 19 standard colors. BRICKFORM Powdered Color is pre-packaged in a two-part system designed to reduce leaks and spills.

* High volume orders may require bulk packaging

- Dissolvable interior plastic bag
- UV-resistant
- Mixes evenly
- Meets ASTM C979

Premium pricing applies to green Powdered Integral Colors.

| PC | 25 Standard Colors | 1 Bag |

* Use Day 1 as a troweling aid, densifier and curing agent. See pg 48.
* Surface Deactivator makes exposed aggregate finishes easier and more consistent. See pg 48.
**Pro-Dye Standard Colors**

**Polishing Systems**  
The Professional Concrete Polishing System is a simple, cost effective and environmentally friendly line of products designed to enhance, protect and beautify existing concrete floors with concrete polishing.

**Brickform Pro-Dye**  
Penetrating Stain For Concrete

BRICKFORM Pro-Dye has been reformulated in liquid form and is now easier to use than before. Pro-Dye is available in the same 26 standard colors and produces the same beautiful results. Pro-Dye penetrates the surface of concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. Pro-Dye is packaged in liquid form to be mixed in proportion with acetone. Pro-Dye is designed to work with the Professional Concrete Polishing System for the coloring process in polishing floors. Pro-Dye is also excellent in vertical applications, stencils, and logos because it dries so quickly. Pro-Dye colors are vivid with unique multi-colored intensities, similar to the mottling effect of acid stain. Colors can be combined to create an unlimited number of color variations.

- Interior use only
- Easy to spray apply
- Dries quickly
- Use any spray-on sealer

**Disclaimer** - When choosing colors, use the appropriate BRICKFORM color selection guide for more accurate matching. Colors shown here display only the range of BRICKFORM options available. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.
Lythic Densifier & XL
Colloidal Silica Technology

Lythic Densifier with reactive colloidal silica is 99.5% pure silica, suspended through a proprietary “green” manufacturing process in an ultra-low surface tension liquid. It reacts with concrete to increase surface density, making it less permeable to liquids and improving impact and abrasion resistance. Lythic’s nano-sized silica particles not only react with lime, but also bond directly to silica already in the concrete. Reactive colloidal silica bonds to and hardens decorative cementitious overlays that are low-lime and do not react well with sodium, lithium or potassium silicates.

Lythic XL is a larger particle-size version of Lythic Densifier, designed for fast build-up for burnishing, and to repair soft slab surfaces.

- Low viscosity for spray application
- No surface residue, no scrub-off
- No whitening when dry
- No hazardous waste removal
- Quick reaction time (30-60 min)
- Saves time and labor during application
- Prevents dusting, increases durability
- Will not contribute to Alkali-Silica-Reaction (ASR)
- Safer pH level (9.5-10pH)
- Concentrate formula
Lythic Protector
Colloidal Silica Technology
Lythic Protector improves on the effectiveness offered by traditional stain protectors by bonding additional silica to the concrete, further toughening it. Lythic Protector enhances color and creates depth of shine. It cures for foot traffic within 24 hours and improves traction of polished surfaces. Lythic Protector also contains lithium to extend water repellency and stain resistance.

- Extends stain resistance
- Enhances color
- Provides durable traffic-wear resistance
- Improves traction
- Works well burnished or not
- Simplifies maintenance
- Multiple applications over prolonged periods

Lythic Cleaner
Colloidal Silica Technology
Cleaning a concrete floor does more than simply maintain appearance and hygiene; it is vital to the continued performance of the finish. Dirt and grit must be removed so they don’t become abrasives that compromise the stain protection layer. Lythic Cleaner goes beyond cleansing; it adds silica to the surface as it cleans. Reactive colloidal silica bonds to concrete, so every cleaning improves resistance to abrasion and liquid penetration. It is chemically matched to Lythic’s stain protection products for complete compatibility. Sold as a concentrate, mild but effective, ideally suited for everyday use, it is the best investment you can make in maintaining a concrete floor finish.

Lythic SPD Protector
Colloidal Silica Technology
Lythic SPD Protector utilizes new protection technology that achieves resistance equal to epoxy coatings against stains, acid etching, and liquid penetration, while remaining breathable. SPD (Silica-Polymer-Dispersion) is a two-part polymer combined with nano-sized colloidal silica. SPD bonds directly to the concrete, enhancing color, and providing significantly greater protection and longer service life than conventional stain protectors.

- High performance coating
- Advanced stain protection
- Elevated chemical resistance
- Durable traffic-wear resistance
- Improves traction
- Dries clear
- Enhances color
- Will not yellow over time
- Bonds to highly polished concrete
- Designed for high speed burnishing
- Simplifies future maintenance
**BRICKFORM Stampable Overlay**

**Concrete Overlay**

BRICKFORM Stampable Overlay “White” is a single component (add water only) blend of white cement and special materials that forms a thin, concrete coating. BRICKFORM Stampable Overlay is specially designed to work with BRICKFORM Overlay Liquid Colorant. BRICKFORM Stampable Overlay is easy to install and forms a tough, durable topping that will withstand years of wear. When used on properly prepared surfaces, BRICKFORM Stampable Overlay will permanently bond to concrete surfaces.

- Creates a new 1/4” to 1/2” surface
- Use with overlay liquid colorant
- Durable
- Use with Triple Seven Bond Coat

**SC-60**
60 lb. bag (White Mix)

For use with Overlay Liquid Colorant and Liquid Release only

---

**BRICKFORM Triple Seven Bond Coat**

**Primer for Cementitious Overlays**

BRICKFORM Triple Seven Bond Coat prevents the concrete from absorbing water from the overlay material making it easier to spread and achieve a smooth surface. Triple Seven Bond Coat is a reactive primer, remaining active for at least two hours after it is applied. Triple Seven Bond Coat increases the bond strength by creating a more efficient chemical link between the concrete and the overlay.

- “Reactive primer”
- Easy application
- Enhances bonding to concrete

**BC-007**
5 Gallon

**BC-0071**
1 Gallon

**BC4-0071**
Case of four 1 Gallon units

---

**BRICKFORM Stampable Overlay “Gray”** is a premixed blend of special materials that, when mixed with water, forms a thin, concrete coating. This overlay is intended for use with Color Hardener and Antique Release.

- Creates a new 1/4” to 1/2” surface
- Can be textured & colored
- Durable
- Use with Triple Seven Bond Coat

**OL-60**
5 Gallon Bucket (Gray Mix)

For use with Color Hardener and Antique Release only
**BRICKFORM Micro-Topping**

Smooth Grade

BRICKFORM Micro-Topping is used on interior or exterior cured concrete to create a durable surface that can be colored or stained. It is available as a white or gray dry powder in Smooth grade, and mixed with Brickform Liquid Polymer. The Smooth Grade is applied over SM Professional Grade for a smooth finish when desired. The mixed materials form a thin concrete coating that can be used to restore or repair any concrete surface.

- Creates a new surface
- Can be colored & stained

**SM Professional Grade™**

Rough Grade Micro-Topping

Sprayable Cementitious Overlay

BRICKFORM SM Professional Grade is a white, sprayable cementitious overlay that is designed to be mixed with Brickform Liquid Polymer and applied with a hopper gun. It can be integrally colored using BRICKFORM Overlay Liquid Colorant. BRICKFORM SM Professional Grade can be used to create the look of brick, stone, tile or other unique specialty finishes.

- Ease of use
- Can be integrally colored
- Can be stained
- Spray or trowel
- Water resistant

TIP: Use design tape to create patterns that mimic stone, tile or slate. See page 26 for details.

**Brickform Vertical Mix**
High-build, vertical texturing mix

BRICKFORM Vertical Mix is a lightweight vertical overlay mix designed for texturing vertical surfaces up to 2" and creating simulated stone, rock, tile, slate and other natural surfaces. It is composed of cement, polymers, lightweight aggregates and admixtures. It may be applied to vertical surfaces such as wood, drywall, concrete, blocks etc.

- Add-water only product
- Color with Overlay Liquid colorant or stain
- Easily textured by carving and stamping

BRICKFORM Paper Stencil patterns are available in both 500 square foot rolls and 1000 square foot rolls.
**Premium Sealers**

Brickform sealers bring out the natural beauty of the textures and color unique to a decorative surface. These superior, durable sealers also protect the finish from sun damage, yellowing, scuffing and premature wear.

### HIGH PERFORMANCE SEALERS

**UreMax WB™**

BRICKFORM UreMax WB is a two-part, matte-finish, water-based polyurethane that forms a high-solids coating. UreMax WB preserves and protects any above-grade concrete, masonry or stone. It is the most durable, chemical-resistant barrier coating of the BRICKFORM sealers, without the odor typically found in solvent-borne sealers. Formulated to seal and protect concrete and masonry that is subject to heaviest use conditions, BRICKFORM UreMax WB is chemically resistant and highly durable.

**Poly-Astic™**

Premium, High-Build, Poly-Aspartic Sealer - Zero VOC

BRICKFORM Poly-Astic is a two-part high solids, high build sealer designed for interior use on concrete or masonry surfaces. Poly-Astic allows for single coat high film thickness in a water clear finish. Poly-Astic provides a very smooth, mirror like finish not attainable with any other product.

- Non-yellowing, crystal clear
- Interior use only
- Enhances color
- Easy to apply

**DecoPoxy™**

DecoPoxy is a water-based, low VOC, penetrating epoxy coating that has been specifically formulated to protect interior commercial or residential cementitious floors. It provides a high gloss, wear and chemical resistance, and an easy to maintain finish, while bringing up the full depth of color on acid stained or decorative floors.

- Helps prevent delamination
- Non-flammable, low-odor and toxicity
- Superior chemical resistance
- Easy to recoat

### PENETRATING SEALERS

**Stealth Seal™**

BRICKFORM Stealth-Seal is non-film forming water and oil repellent that effectively protects and preserves the natural appearance of any surface it's applied on. It works by creating an invisible barrier at the surface level through a chemical reaction between the sealer and the cement paste, allowing vapor transmission while strongly repelling water and oil. Stealth-Seal ideal for any surface that needs protection from stains and the elements. Apply to natural materials, concrete and any cementitious surface.

**Stealth Seal Premium™**

BRICKFORM Stealth-Seal Premium will repel water and oil more effectively, has greater stain resistance and has 50% longer service life than regular Stealth Seal.

### CURE & SEALS

**Gem Cure & Seal™**

Gem Cure & Seal is a medium-to-high gloss, solvent based, clear acrylate co-polymer curing compound, dust proofer and sealer all in one. Gem Cure & Seal minimizes moisture loss from evaporation in newly placed concrete to provide maximum strength, hardness and protection. Reducing water evaporation loss will result in a stronger, denser, more durable concrete with higher compressive strength, and better crack and freeze-thaw resistance.

**Satin Cure & Seal™**

Satin Cure & Seal is a water based, clear acrylic co-polymer curing compound, dust proofer and sealer all in one. Satin Cure & Seal minimizes moisture loss from evaporation in newly placed concrete to provide maximum strength, hardness and protection. Reducing water evaporation loss will result in a stronger, denser, more durable concrete with higher compressive strength, and better crack and freeze-thaw resistance.

### SOLVENT-BASED SEALERS

**Gem-Seal™**

High-Gloss Sealer - 700, 400 or 100 VOC

BRICKFORM Gem-Seal is a high-gloss, solvent-based, non-yellowing sealer. A light coating of this UV-resistant sealer will protect and enhance colored and textured concrete. Use BRICKFORM Gem-Seal on porous concrete and masonry to form a shield against stains and mildew.

- Non-yellowing, crystal clear
- Dries to a “wet-look” finish
- Interior/exterior use
- Enhances color

**Poly-Seal™**

Medium to High-Sheen Sealer - 650, 400 or 100 VOC

BRICKFORM Poly-Seal is a medium-to-high sheen, solvent-based, super-tough acrylic sealer that is easy to clean and maintain. Poly-Seal protects with a UV-resistant coating that penetrates the surface to retard efflorescence and resist oil, grease and food stains.

- Non-yellowing, crystal clear
- Medium-to-high sheen finish depending porosity of surface
- Interior/exterior use

**DecoPoxy™**

DecoPoxy is a water-based, low VOC, penetrating epoxy coating that has been specifically formulated to protect interior commercial or residential cementitious floors. It provides a high gloss, wear and chemical resistance, and an easy to maintain finish, while bringing up the full depth of color on acid stained or decorative floors.

- Helps prevent delamination
- Non-flammable, low-odor and toxicity
- Superior chemical resistance
- Easy to recoat
**SOLVENT-BASED SEALERS cont.**

**Safety-Seal™**
With Traction-Grip, Low-Sheen Sealer
400 VOC or 100 VOC

BRICKFORM Safety-Seal is designed to be slip-resistant and is ideal around pool decks and areas where water or moisture can accumulate. Safety-Seal is a solvent-based sealer that protects concrete surfaces from stains and mildew. BRICKFORM Safety-Seal dries to a beautiful matte finish that is UV-resistant.
- Dries to a low-sheen finish
- Interior/exterior use
- Micronized slip-resistant additives

**SEALER ADDITIVES**

**Tinta’ Seal™** Color tint pack additive for solvent-based sealers

Tinta’ Seal can enhance and correct the color of existing cementitious surfaces such as integral color concrete, stamped concrete, overlays or plain concrete. The BRICKFORM Tinta’ Seal tint packs are designed to be used with any of our solvent base sealers including Gem Cure & Seal. It is packaged in a 16 oz can that is mixed onsite with a 5-gallon pail of either Gem-Seal , Poly-Seal or Gem Cure & Seal.

**Traction Grip™**
Traction Grip is an anti-slip micronized powder that adds texture to decorative sealers (BRICKFORM Gem-Seal, Poly-Seal, and Satin Seal). The lightweight spherical shape and clarity gives Traction Grip its specific properties. Applications include inclined driveways, garages, steps, patios and pool decks.
- No sharp edges
- Disperses easily
- Does not affect color

**Matte-Magic™**
Gloss Reducing Additive

BRICKFORM Matte-Magic is a liquid, field-added, flattening agent additive for Brickform solvent based sealers. The original topcoat gloss is reduced based on the amount of additive used. The finished gloss reflectance can be varied from semi-gloss to satin. Matte-Magic comes in 8 oz units, each unit is added to a 5 gallon sealer for gloss reduction.
- Effectively reduces gloss
- Easy to measure and mix
- Does not affect viscosity

**SEALER STRIPPER**

**Strip-It™**

BRICKFORM Strip-It is an environmentally sound and user-safe stripper for water and solvent-based sealers and paints. Strip-It may be used on all masonry surfaces including concrete, quarry tile, ceramic tile, terrazzo, cementitious overlays and other surfaces. Strip-It meets 2005 California Air Resources Board V.O.C. standards (less than 50% V.O.C. by weight).
- Non-flammable
- Contains no methylene chloride

---

**WATER-BASED SEALER**

**Satin-Seal™**
Satin-Finish “Natural-Look” Sealer - 100 VOC

BRICKFORM Satin-Seal is a non-flammable product, designed to protect concrete with a satin finish. This water-based acrylic VOC-compliant sealer reduces the effect of efflorescence on porous surfaces, while forming a non-yellowing, scuff-resistant finish that resists moisture penetration.
- Non-yellowing satin-finish
- Interior/exterior use
- Scuff-resistant
* NOT RECOMMENDED FOR DECORATIVE APPLICATIONS SUCH AS STAMPED, STAINED OR DYED CONCRETE. Please review the TIS at www.brickform.com for applications and guidelines.

Finishing Aids

Liquid Release
Colorless Bond-Breaker For Stamping
BRICKFORM Liquid Release is a colorless bond-breaker, formulated and recommended for use with all BRICKFORM Texture Mats and with many other architectural concrete texturing systems. BRICKFORM Liquid Release forms a lubricating barrier that prolongs the life of the imprinting tools by decreasing the friction between the mats and the concrete.

- Prevents mats sticking to concrete
- Easy-to-apply liquid
- Prolongs tool life
- Interior/exterior use
- Apply with sprayer

Neutra Clean™
BRICKFORM pH neutral cleaner is a cleaning and neutralizing agent engineered for use on acid and reactive stained floors prior to sealing and to remove light oil, grease or other types of soils from colored, imprinted and natural concrete surfaces. This product combines cleaning and light degreasing without the use of petroleum solvents and effectively loosens residues from the staining process as well as loosening release powders from stamped concrete.

NC4-1  | Case of four 1 Gallon Bottles |

Lythic DAY1
Colloidal Silica Technology
Lythic DAY1 Troweling Aid, Densifier and Curing Agent is a colloidal silica-based topical additive that makes concrete flatwork finishing easier and faster, and produces a better result. Applied during floating and troweling, Lythic DAY1 lubricates the surface for easier, faster finishing, increases cream for a better finish, significantly extends workability time under adverse conditions, slows surface drying and premature set, and eliminates the need for adding water during finishing.

Surface Deactivator
Surface Deactivator by Solomon Colors makes exposed aggregate finishes easier and more consistent. It is topically applied to freshly-placed concrete to prevent cement paste hardening and achieve more controlled exposed aggregate finishes. Unlike sugar-based retarders with uncertain levels of retardation, Surface Deactivator selectively halts the hydration process down to a controlled depth. Ten predetermined depths of exposure are available, color-coded for identification, to provide consistent, repeatable cement paste removal and aggregate reveal.

Surface Deactivator can be applied to newly-placed concrete that is specified for diamond polishing. It softens surface cement paste, reducing heavy grinding stages up to 75%.

BRICKFORM Dura-Wax
Premium Acrylic Floor Wax

BRICKFORM Dura-Wax is an acrylic wax that forms a long-lasting protective coating over a BRICKFORM sealer. Dura-Wax provides wear-resistant sacrificial coating. Dura-Wax stands up to the heaviest of traffic conditions. It is easily applied and can be re-coated up to 100 times without having to strip the floor. It will not powder and it can be mopped or cleaned time after time without damaging its original shine. BRICKFORM Dura-Wax is ideal for ongoing maintenance.

- Super-tough film
- Semi-gloss
- Interior use only
- Slip-resistant

DW-1000 1 Gallon Bottle
DW-41000 Case of four 1 Gallon Bottles
DW-5000 5 Gallon Bucket

E-Etch

BRICKFORM E-Etch is an environmentally friendly industrial strength floor cleaner, degreaser and light etching product. It is ideal for cleaning and preparing cementitious surfaces for acid staining, decorative overlays, water-based stains, and coatings applications. It may also be used on concrete, stucco, terrazzo and most masonry surfaces to open up the pores on the surface and clean grime, dirt, grease, scuff marks and stains. E-Etch effectively removes excess Antique Release from textured concrete and can also be used as an efflorescence remover.

- Biodegradable
- Rinse with water
- Non-hazardous
- Non-abrasive
- Non-carcinogenic
- Antique Release/efflorescence remover

ES-1200 1 Gallon Bottle
ES4-1200 Case of four 1 Gallon Bottles
Coloring
Liquid or Powdered Integral Colors, meeting ASTM C979 standards. Integral colors are designed to color the cement paste in a concrete mixture.
Color Hardener produces clear, sharp impressions that enhance the finished appearance of any hardscape.
Antique Release and Antique-It impart a second color to create antiqued and textured concrete surfaces.
Liquid Release is a colorless bondbreaker, formulated and recommended for use with all texture mats.

Aids
Lythic DAY1 Troweling Aid, Densifier and Curing Agent is a colloidal silica-based topical additive that makes concrete flatwork finishing easier and faster, and produces a better result.

Stamping
Texture mats and skins
Texturing accessories including pounders, touch-up wheels, grouting tools and chisels
Cleaning: E-Etch concrete degreaser and etching agent

Cure and Seals
Gem Cure & Seal 1315, 350 or 650 VOC is a solvent-based, clear acrylate co-polymer curing compound, dust proofer and sealer. (Also Gem Cure & Seal 309, 100 or 350 VOC.)
Satin Cure & Seal 1315 (also 309) is a water-based, clear acrylic co-polymer curing compound, dust proofer and sealer.

Sealers
Poly-Seal is a medium-to-high sheen, solvent-based, super-tough acrylic sealer that is easy to clean and maintain.
Gem-Seal is a high-gloss, solvent-based, non-yellowing sealer.
Safety-Seal is a matte-finish, solvent-based sealer designed to be slip-resistant and is ideal around pool decks and areas where water or moisture can accumulate.

Stained Concrete Systems
Stealth-Seal is non-film forming water and oil repellent that effectively protects and preserves the natural appearance of any surface it’s applied on.

Interior Use Sealers
DecoPoxy is a high-gloss, water-based, low VOC, penetrating epoxy coating that has been specifically formulated to protect interior commercial or residential cementitious floors.
UreMax WB is a two-part, matte-finish, water-based polyurethane that forms a durable, high-solids coating.
Poly-Astic (interior use) is a two-part, high solids, high build sealer designed for use on concrete or masonry surfaces.
Dura-Wax (interior use only) is an acrylic wax that forms a long-lasting protective coating over a Brickform sealer.

Maintenance
E-Etch is a biodegradable concrete cleaner perfect for the removal of excess Antique Release or for the removal of efflorescence.
Dura-Wax.

Refer to technical data sheets prior to application.

DecoPoxy is a high-gloss, water-based, low VOC, penetrating epoxy coating that has been specifically formulated to protect interior commercial or residential cementitious floors.

UreMax WB is a two-part, matte-finish, water-based polyurethane that forms a durable, high-solids coating.
Poly-Astic (interior use) is a two-part, high solids, high build sealer designed for use on concrete or masonry surfaces.

Satin-Seal is a water-based acrylic VOC-compliant sealer that reduces the effect of efflorescence on porous surfaces, while forming a non-yellowing, scuff-resistant finish that resists moisture penetration.

Dura-Wax (interior use only) is an acrylic wax that forms a long-lasting protective coating over a Brickform sealer.

Maintenance
Dura-Wax (interior use only) is an acrylic wax that forms a long-lasting protective coating over a Brickform sealer.

E-Etch is an environmentally friendly industrial strength floor cleaner, degreaser and light etching product.

REFER TO TECHNICAL DATA SHEETS PRIOR TO APPLICATION.
Coloring
Cem-Coat is a high-quality, self-priming cementitious coating. For use on interior or exterior concrete surfaces. Restore stamped concrete projects with a solid color (needs to be sealed). Antique with water soluble Antique-It.

FreestylePRO is an ultra-low VOC, water-based, penetrating, polymer modified concrete stain. It is designed to rejuvenate cured concrete and overlay surfaces providing a solid color that requires no sealer. FreestylePRO Highlighter is a transparent stain and will provide an antiqued look.

Application Tools for FreestylePRO:
Applicator brushes available in 8”, 10” or 18” widths.

Sealers
Poly-Seal is a medium-to-high sheen, solvent-based, super-tough acrylic sealer that is easy to clean and maintain.

Gem-Seal is a high-gloss, solvent-based, non-yellowing sealer.

Safety-Seal is a matte-finish, solvent-based sealer designed to be slip-resistant and is ideal around pool decks and areas where water or moisture can accumulate.

Stealth-Seal is non-film forming water and oil repellent that effectively protects and preserves the natural appearance of any surface it’s applied on. (Cem-Coat only).

Interior Use Sealers for use with Cem-Coat
DecoPoxy is a high-gloss, water-based, low VOC, penetrating epoxy coating that has been specifically formulated to protect interior commercial or residential cementitious floors. (Cem-Coat only)

UreMax WB is a two-part, matte-finish, water-based polyurethane that forms a durable, high-solids coating. (Cem-Coat only)

Poly-Astic (interior use) is a two-part, high solids, high build sealer designed for use on concrete or masonry surfaces. (Cem-Coat only)

Satin-Seal is a water-based acrylic VOC-compliant sealer that reduces the effect of efflorescence on porous surfaces, while forming a non-yellowing, scuff-resistant finish that resists moisture penetration. (Cem-Coat only)

Dura-Wax (interior use) is an acrylic wax that forms a long-lasting protective coating over a Brickform sealer. (Cem-Coat only)

Refer to technical data sheets prior to application.
Resurfacing Systems

**Primer**
Triple Seven Bond Coat is a reactive primer, forming a chemical link between the overlay and the substrate. It increases the bond strength by creating a more efficient chemical link between the concrete and the overlay.

**Overlay**
SM Professional Grade can be troweled or sprayed using a hopper gun to create unlimited patterns and designs when using stencils and taping out patterns.
Add Micro-Topping to create a smooth durable concrete surface that can be colored or stained.
Stampable Overlay, SC-60 “white”, is specially designed to work with Overlay Liquid Colorant and Liquid Release.
Stampable Overlay, OL-60 “gray”, is specially designed to work with Color Hardener and Antique Release, perfect for high-traffic areas.

**Coloring**
Overlay Liquid Colorant designed for Brickform resurfacing products. (Micro-Topping, SM Professional Grade, and Stampable Overlay, SC-60 “white.”)
Color Hardener and Antique Release (OL-60 “gray”).
Blush-Tone Acid Stain reacts with minerals that exist in newly cured or existing concrete, penetrating the very top layer of the concrete surface with variegated color that will not chip, crack, or peel.
E-Stain creates a chemical reaction within the concrete substrate that slightly etches the concrete surface to provide deeper and more permanent color.
ARTesian Stain contains no acids or harmful chemicals and works as an alternative to typical reactive acid stains.
Pro-Dye (interior use only) penetrates the surface of concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. It is excellent in vertical applications, stencils, and logos because it dries so quickly and colors are vivid with unique multi-colored intensities, similar to the mottling effect of acid stain.
Cem-Coat is a high-quality self-priming cementitious coating. For use on interior or exterior concrete surfaces. Antique with water soluble Antique-It.
FreestylePRO is an ultra-low VOC, water-based, penetrating, polymer modified concrete stain. It is designed to rejuvenate cured concrete and overlay surfaces providing a solid color that requires no sealer.

Densifier
Lythic Densifier and XL Densifier are specifically formulated to increase durability and save both time and labor.

Coloring
Pro-Dye (interior use only) penetrates the surface of concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. It is excellent in vertical applications, stencils, and logos because it dries so quickly and colors are vivid with unique multi-colored intensities, similar to the mottling effect of acid stain.

Liquid or Powdered Integral Colors, meeting ASTM C979 standards. Integral colors are designed to color the cement paste in a concrete mixture.

Protector
Lythic Protector and SPD Protector toughen the concrete, enhance color, create depth of shine and improve traction of polished surfaces. It also contains lithium to extend water repellency and stain resistance.

Cleaner
Lythic Cleaner adds silica to the surface as it cleans. Reactive colloidal silica bonds to concrete, so every cleaning improves resistance to abrasion and liquid penetration. Lythic Cleaner is suited for everyday use.

How To Order Texture Skins

Select the characteristics of your Texture Skin by choosing one option from each section and entering the order number or letter in sections A through E. Then build the part number.

For more information and approximate lead times on special or custom orders, please contact Customer Service at 1-800-483-9628.

Section A. Choose the Texture (Indicates Made-to-Order, additional production lead time)

- [ ] Blue Stone
- [ ] Limestone
- [ ] Rough Stone
- [ ] Heavy Stone
- [ ] Sanded Slate
- [ ] Renaissance Slate
- [ ] Chiseled Slate

- [ ] Roman Slate
- [ ] Yucatan
- [ ] Sierra Seamless
- [ ] Rocky Mtn. Stone (Large size is 36”x48”)
- [ ] Smooth Slate
- [ ] Desert Slate
- [ ] Elk Mountain

- [ ] Regal Ashlar
- [ ] Sierra Seamless
- [ ] Desert Slate
- [ ] Cracked Mud
- [ ] Lunar Rock
- [ ] Super Slate
- [ ] Sidewalk Stone
- [ ] Riviera Slate

Section B. Choose the Size of the Texture Skin

- [ ] Extra Small (Approx. 12” x 12”)
- [ ] Small (Approx. 24” x 24”)
- [ ] Medium (Approx. 36” x 36”)
- [ ] Large (Approx. 48” x 48”)
- [ ] Extra Large (Approx. 60” x 60”)

Limestone, Rough Stone, Heavy Stone, Sierra Seamless, and Desert Slate only

Approximate size based on hand pour of each tool.

Section C. Choose a Flex-Rating

- [ ] Ultra Flexible (soft)
- [ ] Classic Flexible (medium)
- [ ] Standard Flexible (firm)

For finishing and corners

Original BRICKFORM medium flexibility, detailed feathered edge

Tough, rigid skin - tighter feathered edge

Section D. Choose the shape of the Texture Skin

- [ ] Free Formed (rounded)
- [ ] Square

Custom order – 2 week production lead time

Section E. Choose with or without handles (Ultra-Flexible not available with handles)

- [ ] Without Handles
- [ ] With Handles

Custom order – 2 week production lead time

(Sizes medium, large, and extra large)

Part number Sample: A4M2Y = Blue Stone, Large, Medium-Density, Square, With Handles

Disclaimer - All measurements are nominal. Skin and texture mat measurements are based on the Brickform mold size. Urethane has a natural tendency to shrink or expand, depending on environmental factors. This does not affect how the mats fit together.
